HTML; CSS; JS;

Angular;

React;

Node JS;

PROFILE

Good day. I studied at the Unit Factory. I started studying programming with the C language, later I passed the Front-end and Full-stack (js) branch. The training took place in the format of passing sprints and working on projects. It is interesting for me to develop in this direction. I am a communicative and beginner developer, ready to develop (Let's communicate)

EDUCATION

Bachelor in automation and computer-integrated technologies

- NTUU "Igor Sikorsky Kyiv Polytechnic Institute" | 2018 – Present

Student (Branch C & Branch Front-end)
